

Sampath Arjunan

Security Clearance Status: Active (Reference can be provided on request)

Technical Architect ([Lightning Champions](#))

Hardcore development and implementation in salesforce over 15+ years of experience for more than 50 projects across Middle East, India, US and UK. Multiple domain experience (Nonprofit Sector, Free Zone, Oil and Gas, Telecom, Financial Services, Revenue Cloud etc.). Proficient in independently handling business requirements, I excel in architecting, developing, and deploying Salesforce solutions. I hold 26 Salesforce certifications, reflecting a deep understanding and mastery of the platform. Additionally, I possess extensive experience in integrating Salesforce with leading ERPs and databases, having completed over a dozen integration projects to date and best of the breed ERPs and Databases.
